

Health & Safety, Quality & Environment Administrator

One Year Contract Position

To further support our ship and terminal operations and continually improve our safety performance, we are seeking a Health & Safety, Quality & Environment Administrator to join our H&S Team. This position will provide administration and claims management administrative support in addition to having an operations field presence.

If you are a recent graduate of a health and safety certified program and are interested in learning about administering a workplace safety program, managing Work Safe BC claims, expanding your knowledge of terminal and stevedoring operations and have a passion for entrenching safety into company culture, this opportunity is for you. Ideal candidates excel in a dynamic team environment, embrace technology and are excellent communicators. Extensions to this position will be based on operational outcomes and individual performance.

If you are interested in joining the Western Stevedoring team, please apply at hr@westeve.com by November 17, 2017.

While we thank all qualified individuals for their interest, only those selected for an interview will be contacted.

Western Stevedoring is an equal opportunity employer.
